EXPERIENCE

KANO STATE PRIMARY HEALTH CARE DEVELOPMENT MANAGEMENT BOARD

Kano, Nigeria

Data Clerk (Intensified Extended Vaccination Implementation)

April – June 2025

- Supported implementation of Intensified Extended Vaccination (IEV) campaigns
- Conducted systematic household mapping to identify eligible caregivers and target populations for immunization services.
- Collected and recorded data from 200+ households and caregivers using digital data collection tool (Comcare), ensuring completeness and accuracy.
- Performed data quality checks daily, reducing entry errors and improving reliability of immunization coverage reports.
- Submitted timely daily reports to team lead, supporting monitoring and supervision of campaign progress.
- Collaborated with community health workers and supervisors to track immunization coverage, identify missed children, and close service delivery gaps.
- Collaborated with field supervisors and community health workers to address gaps in household coverage and improve outreach in underserved areas.

THE FUTURE HOPES CHILD AID FOUNDATION

Nigeria

Volunteer

2023 – till date

- Assisted in community-based child welfare programs, supporting vulnerable children through educational outreach, mentorship, and psychosocial support.
- Participated in health and nutrition awareness campaigns, engaging caregivers and households to promote child wellbeing and access to essential services.
- Contributed to program monitoring and reporting, ensuring accurate documentation of outreach activities and feedback from beneficiaries to improve service delivery.

NAPS - BUK

Kano, Nigeria

Volunteer Community Outreach

2019 - 2024

- Provided primary physiotherapy and rehabilitation care to community members
- Supported community sensitization and mobilization activities, reaching over 100 of households to raise awareness on health, nutrition, and child immunization.
- Assisted in organizing and facilitating outreach sessions, ensuring smooth coordination with local leaders and engaging diverse community groups.
- Contributed to documentation and reporting of outreach activities, providing accurate data that informed program planning and evaluation.

Clinical Attachment - Physiotherapy

June – September 2024

- Supported physiotherapists in patient assessment and rehabilitation, observing and assisting in therapy sessions for musculoskeletal and post-surgical cases.
- Gained hands-on exposure to rehabilitation techniques, exercise therapy, and patient mobility support, strengthening understanding of clinical and community health care delivery.
- Assisted with patient record documentation and case follow-up, ensuring accurate data entry and improved continuity of care.
